Julia Andrews
Select Board Chair
Town of Westford
1713 VT Route 128
Westford, VT 05494

Julia,

I am writing to express our support. Green Mountain Habitat for Humanity is in full support of this 1705 VT. Route 128 project, and the building of perpetually affordable home ownership opportunities in the Town of Westford. Creating these 8 units of energy efficient, and affordable housing in Westford will enable those working families the opportunity to own a home, build equity, and provide stable safe environment for children to grow up. We have offered to join the Steering committee, and we are willing to dedicate \$500 in Habitat professional construction, and project development staff time. We want to help make this Westford Town project one that the town can be proud of well into the future. Green Mountain Habitat for Humanity has been building single family and, multifamily homes in Chittenden County for 36 years.

Sincerely,

David Mullin
Executive Director
